WHAT IS WOMEN IN PROPERTY?

The Association of Women in Property ("WiP") is a dynamic forum for the professional development of women in the property and construction industry. It enables members to enhance business opportunities, exchange views, network and gain knowledge. It is a unique organisation in that its members cover all disciplines within the property and construction sectors.

The organisation seeks to promote the role of women in a wider business community and to encourage more women to take up and develop their careers in property. This has been done in many ways, including the mentoring of graduates and attending schools and colleges to explain the careers available in the property and construction industry.

Established in 1987, Women in Property is a national body with 8 regional branches and over 1,500 members.

Lara will then forward a recent newsletter and will advise the relevant branch of your membership. Your details will be then entered on the internal WiP database, which is circulated to all branches for their internal administrative purposes, as well as the online directory, which is accessible only to members of WiP via a secure password and not available to the public at large via the internet. Your details will not be disclosed to third parties nor used for external marketing purposes. Please confirm your agreement by ticking the box on page 3 of the form. The online directory provides members with the ability to search via disciplines, location and branch and is accessible to members only. Any change of details need to be forwarded to Lara Farey so that your entry is up to date and so that you receive mailings via the e-mail function.

If you do not start to receive mailings from the relevant branch, please let Lara Farey know.
